Controller's Report: Saif Mogri said a couple of invoices for Web Corner and Rackspace were paid in July.

Budget Report: None

#### **Chair Comments:**

The Chairs stated they are both working to handle the discord on the Board and need to keep the Council functioning. Board members' number one priority should be to behave in a civil manner and work together.

#### **Public Comment:**

Marie Javdani is worried about the low census count, especially among seniors. Barbara said the West Valley Animal Shelter is currently closed and she is concerned there will not be services available if it becomes a private rescue center. Gail said with the shelter closed the only animal services in the San Fernando Valley will be at the East Valley shelter and CD12 has provided no comment. Michelle is opposed to giving the shelter to a private rescue organization. "Fire Tablet" does not want the West Valley shelter closed as Van Nuys is too far away, and said the shelters were paid for with tax dollars. Chris Rowe wanted to mention there are two important meetings coming up: a forum on Storm Water next Tuesday from 4 to 6 PM, and the State Heritage Commission will discuss traditional historic properties including the need to preserve sacred land at the SSFL. Cathy said the West Valley Animal Shelter needs to reopen and NCs can make statements to the Animal Services Commissioners. Bill Rose said West Valley Christian Church is doing services online. of NC Alliances and will be at the next VANC meeting. Christina Walsh said Board members should not interrupt speakers during public comment.

[Betty.Wong@LACITY.org](mailto:Betty.Wong@LACITY.org)

On Aug. 31 at 7 PM, DONE will hold a working group to revamp the website. Chris Rowe asked if stakeholders can participate in training and Ms. Park stated training is open to the public.

They are working on the palm trees Historic Cultural Monument. No final decision has been made regarding the West Valley Animal Shelter and meetings are being held to discuss its future. It is closed but will reopen, possibly with a non-profit partner.

Tara Vahdani from LAUSD said the district will hold a Community Town Hall of Schools at Taft High School in Woodland Hills.

Tanaz Golshan from the Mayor's Office spoke about new grant, not loan, programs to help small businesses. LADWP is enforcing electrical service disconnects for business not conforming to COVID restrictions regarding gatherings.

MOTION

The tragic murder of George Floyd in Minneapolis has sparked one of the largest and most profound movements for social justice our country has seen. Like many other cities across our nation, Los Angeles has seen large displays of protest and unity. Early on, there were some reports of opportunistic acts of violence, vandalism and looting, however, the majority of these protests have been peaceful, powerful and served to bring our City together.

Peaceful and first-amendment protected demonstrations are continuing in Los Angeles, part of a national call for justice. Further, while more instances of restraint and professionalism were displayed by the men and women of the Los Angeles Police Department (LAPD), there were a number of instances where excessive force appeared to be used against protesters.

Of particular interest is Saturday, May 30, 2020, though it is not the only example. What started out as a peaceful, multicultural and multigenerational family-oriented gathering at Pan Pacific Park turned into violence and chaos by day's end.

I THEREFORE MOVE that the Office of the Inspector General, with assistance from LAPD and the Department of Civil and Human Rights (CHRD), be requested to report back with a thorough review and explanation of the tactics used by Los Angeles Police Department personnel on Saturday, May 30, 2020, particularly in the vicinity of the "Fairfax District", including an explanation of the chain of events that led the decision to have LAPD officers engage with protesters.

I FURTHER MOVE that the Office of the Inspector General, with assistance from LAPD and the Department of Civil and Human Rights (CHRD), be requested to investigate complaints filed against LAPD for use of force in dispersing demonstrators, including the purposes and types of less-than-lethal tools used, use of force for crowds already dispersing, and claims of LAPD focusing on protest gatherings reducing response times for smaller groups committing acts of arson, looting, and vandalism.

I FURTHER MOVE that LAPD, CHRD, Chief Legislative Analyst (CLA) and other relevant agencies be instructed to conduct a thorough review and evaluation of current departmental protocols for crowd control and the levels of force on peaceful protesters and report back with their findings and recommendations to address any issues found.

The San Fernando Valley has had a rich history as the pastoral and agricultural heart of Los Angeles. Although growth and urbanization has transformed the Valley into a melting pot of suburban Los Angeles, the trees that were planted by the early pioneers and ranchers remain to tell the story of the past.

The City of Los Angeles has taken significant steps to preserve this history, especially in Council District 12, as seen with the Historic Cultural Monument designation of the Lassen Street olive trees (HCM No.49) in Chatsworth and the “E.T.” deodar trees (HCM No. 41) along White Oak Avenue in Granada Hills. These trees and others across the City of Los Angeles help define the character and culture of their neighborhoods.

This is especially the case in West Hills, where the palm trees that line March Avenue between Ingomar and Justice Streets are cherished for their beauty and historic significance. Leading up to the original entrance to Rancho Sombra del Roble, the rural retreat of Union Oil Company geologist William W. Orcutt that is currently known as Orcutt Ranch Horticulture Center, these trees also have appeared in numerous movies television shows, including the 1976 film *Bad News Bears*.

The West Hills Neighborhood Council therefore asks Councilmember John Lee to submit a motion for the City Council to initiate consideration of the palm trees on March Avenue between Ingomar and Justice Streets as a City Historic-Cultural Monument under the procedures of Section 22.171.10 of the Administrative Code, and instruct the Planning Department to prepare the Historic-Cultural Monument Application for review and consideration by the Cultural Heritage Commission.

As a result of the economic tumult resulting from the COVID-19 pandemic, small businesses have taken a beating. As the contours emerge of what the next phases of public health orders will look, many small business owners are struggling to imagine how their enterprises will survive. One industry that will surely struggle with continued physical distancing rules is the restaurant industry — and the City needs to consider how it can help the industry alive, businesses thriving, and workers employed.

Most restaurants, even popular spots in the LA food scene, survive on thin margins. If restaurants reopen for dine-in service under distancing rules that shave their seating capacity dramatically, they will not likely survive. The impact to Los Angeles economy would be extreme. Prior to the current crisis, the restaurant industry had faster job growth than any other sector of the city's economy, employing more than 125,000 people and increasing 3.3% per year. Restaurant workers are among the most economically vulnerable in the city, with an average annual income of barely \$22,000. The collapse of the restaurant industry would be catastrophic for the city's economy and ruinous for its workers. These effects would be particularly acute in communities of color, where hourly wage jobs provide a lifeline for immigrant families and minority-owned restaurants provide an important pathway to the middle class.

While many restaurants have quickly adapted to takeout and delivery-only business models, returning to profitability and full employment will depend on restoring dine-in service. However, until there is a vaccine, physical distancing requirements are likely to require restaurants to cut indoor dining room capacity by 50% or more—far below what is required for profitability. There is an urgent need for innovative ways to expand dining capacity or neighborhoods will lose beloved local institutions and Los Angeles will lose one of its defining cultural assets. Temporarily allowing restaurants to use some available space in the public right of way is a relatively simple and cost-effective way of boosting their capacity and helping them survive.

As other sectors of the economy continue to telecommute, lower traffic volumes are likely to persist even as the economy starts to recover. Furthermore, with lower occupancy, restaurants will need less parking for customers. The City should create opportunities to repurpose underutilized street space and parking lots to support the economic survival and recovery of the restaurant industry. Expanding outdoor dining will help restaurants return to profitability, restore staffing levels and incomes for workers, and provide customers with a healthier and safer dining environment consistent with public health guidelines.

The City's existing sidewalk dining program offers one model for allowing restaurant expansion into the public right-of-way, but few sidewalks are wide enough to meet requirements and

restaurants report that the permitting process is cumbersome and expensive. Other programs, such as LADOT's People Street, convert underutilized roadways into parklets and pedestrian plazas, but don't currently allow for table service. A new program is needed that combines the best attributes of these existing programs, but is also flexible and affordable for struggling restaurants with limited funds and unique space constraints. The City should act urgently to adapt these programs to meet the current needs of the restaurant industry and ensure that they are available in time for the resumption of dine-in service.

**I THEREFORE MOVE** that the City Council direct the Department of Transportation (LADOT) and Bureau of Engineering (BOE) to report back with a streamlined and affordable program for permitting restaurants to provide dine-in service within the public right-of-way that can be launched as soon as allowed by public health rules.

**I FURTHER MOVE** that the City Council direct the Department of City Planning to report back with recommended actions to temporarily suspend parking requirements and other applicable codes to allow for the conversion of private parking lots to dining space at existing restaurants.

On March 16, 2020, Mayor Garcetti announced relaxed parking enforcement as part of the City’s response to COVID-19. From March to June 2020, the Los Angeles County unemployment rate has risen from 6.6% to 19.5% respectively. With thousands of Angelenos out of work and millions abiding by the “Safer-At-Home” order, which is still in effect, it is necessary to extend relaxed parking enforcement.

While some businesses are operating in-person at significantly decreased capacities, many more businesses and their employees are staying at home. Families across the City must also continue to provide necessary emergency child care as the Los Angeles Unified School District announced the continuation of its online education. In addition, families are continuing to provide support for the elderly, face ongoing potential job losses, and experience daily uncertainty due to COVID-19.

I THEREFORE MOVE that the Council instruct the Los Angeles Department of Transportation to continue to temporarily suspend the enforcement of peak/rush hour and gridlock zone parking restrictions, relax posted non-metered time parking restrictions, and suspend the issuance of residential street sweeping parking citations until the “Safer-At-Home” order is lifted.

## **DRAFT OF LETTER TO CD 12 AND CITY REPRESENTATIVES**

Dear \_\_\_\_\_:

One of the principal mandates of the West Hills Neighborhood Council (WHNC) is to promote the wellbeing and safety of the community's stakeholders.

Ever since Valley Circle Boulevard opened up to connect the 101 Freeway and Chatsworth, residents along this stretch of road have endured loud and life-threatening exhibitions of speed almost on a nightly basis.

The problem also extends to Roscoe Boulevard, Vanowen Street and other east-west streets that intersect with Valley Circle, leading to many accidents and deaths over the years.

Stakeholders also have reported to the WHNC's Streets & Transportation Committee that drivers are altering the exhaust systems on their cars, trucks and motorcycles, intentionally generating sounds similar to explosions and gunfire. This has caused residents to be startled awake in the middle of the night and causing many to make 911 calls to the police.

The reckless driving, speeding and noise can be mitigated with increased patrolling and ticketing by law enforcement during the day and especially at night.

Therefore, the West Hills Neighborhood Council implores police and public officials to immediately address these pressing issues by stepping up traffic and vehicle code enforcement along Valley Circle Boulevard and adjoining streets. Failure to act now would put the safety and wellbeing of our stakeholders at unnecessary risk.

We also support efforts by other Neighborhood Councils to address these problems on a citywide basis.

Thank you for your prompt response to this matter.

Sincerely,

Daniel Brin, President  
Charlene Rothstein, Vice President  
West Hills Neighborhood Council

**Subject:** Vehicle Exhaust Noise

This was on our Agenda in 2017, but nothing has been done.

We received two letters from other neighborhood council's, but I think the problem is getting worse, and other communities are beginning to understand the increasing frustrationc

Some of these vehicles sound like machine guns and the LAPD are getting calls from stakeholders believing they are gunshots when the noise is actually coming from vehicles.

PLEASE JOIN US!

Presentation, Discussion and Possible Action: To send a letter to our city representatives regarding excessive vehicle exhaust noise level which has created an atmosphere of intimidation, fright and serves as a mating call for street racing. The NoHo Neighborhood Council believes that increasing the fines associated with excessive and purposeful exhaust noise may limit the increasing problem in our neighborhoods and the City of Los Angeles. We will hope to partner with other Neighborhood Councils to ensure that our streets are safe from reckless drivers and unnecessary noise.
