New speed tables are in place on Riverside Dr at Riverdale Ave in CD13! LADOT crews recently installed these safety enhancements to help control speeds in the area. #DidYouKnow that speed tables are wider and flatter than speed humps?

A case study to make a claim for humps on Valley Circle, this is a major street in the Northeast.

Another case study is on Temple Street in Rampart Village

Please Cross Street Safely!

- 1. Grab a flag to be seen**
- 2. Wait for traffic to stop and then cross the street**
- 3. Give a thank you wave!**
- 4. Put the flag on the other side**

Pedestrian Flags.

Here's how it works: Flags on sticks sit in holders at opposite sides of a crosswalk. A pedestrian takes a flag – usually bright orange or yellow -

- and uses it to wave at cars while he or she is crossing the crosswalk. That helps get the attention of people driving. When the walker is safely on the other side, he or she deposits the flag at an identical bucket for the next person to use.

Program sponsorship
TBD. Typical sponsors are school in conjunction with WHNC

Flags can also be used to help with traffic at drop off and pickup locations at schools.
