Expiration Date

Ordinance drafted based on City's Comprehensive Homeless Strategy. As well as common barriers facing development of PSH in the City

Summary

The PSH allows administrative clearance in application process, in addition to new requirements to streamline production of PSH buildings and units

Goal: standardize requirements, streamline planning entitlements, recognize unique characteristics of PSH, and ensure quality design/resident amenities

Measure HHH expenditure plan has goal of City to build 1,000 PSH units over next ten years

The **PSH Ordinance would allow** for projects to select up to four concessions with respect to the Zoning Code, including up to 20 percent decrease in required setbacks, up to 20 percent reduction in required open space, up to 20 percent increase in lot coverage limits, up to 35 percent increase in FAR (Floor to Area Ratio) and depending on the height district up to a 35 percent increase in height or one additional story. Additional design requirements include that when adjacent to or across an alley from an R2 or more restrictive zone, the building's transitional height shall be stepped-back within a 45-degree angle.

When adopted: ordinance would help with community development and reduce project costs while allowing projects to be completed on time

What this ordinance specifically does:

- Create administrative clearance procedure for qualifying PSH projects in public benefit section of zoning code
- Establish requirements regarding population served, notify public and provide supportive services
- Provide density bonus/other incentives (as well as modified parking standards)

- Provide option for additional relief from development standards, consistent with state law
- Establish performance of PSH projects, including design
- Amend site plan review thresholds for qualifying PSH projects

Definitions (LAMC Section 12.03)

The following terms would be defined in Section 12.03, reflecting existing definitions in state law:

- **Supportive Housing**, defined as housing for individuals with low incomes and one or more disabilities, including homeless individuals, which is linked to on-site or off-site supportive services
- **Supportive Services**, defined as services that are provided on a voluntary basis to residents of supportive housing and transitional housing, to assist the individual in obtaining and maintaining their housing

Motions

As its meeting of December 14, 2017 the Los Angeles Planning Commission took the actions below in conjunction with the approval of the proposed ordinance:

An ordinance amending sections 12.03, 12.04.09, 14.00 and 16.05 of the Los Angeles Municipal Code establishing regulations to facilitate the production of Permanent Supportive Housing

Summary of changes

Qualified Permanent Supportive Housing Project (LAMC Section 14.00 A.11(a))

In order to be considered a Qualified PSH Project and eligible for the provisions of this ordinance, the project must be located in a zone that allows **multiple dwellings** (RD1.5 or less restrictive) and all units are required to be **affordable, and a minimum of 50% of the total units must be restricted to the Target Population, which is defined as persons with lower incomes who have one or more disabilities and are homeless, or are chronically homeless**

Requirements (LAMC Section 14.00 A.11(c))

In order to obtain project approval, all Qualified PSH projects would be required to comply with a set of new requirements related to supportive services, including **55-year affordability covenants.**

Design Standards

Due to the **high level of public scrutiny** and funding requirements, PSH projects are typically well-designed. To further ensure that projects have quality design and are well-situated in existing neighborhoods, the proposed ordinance includes a series of ministerial design standards. The design standards were drafted based on multifamily residential design guidelines that currently exist in other City regulations, with the intent that all design standards are objective so as to facilitate ministerial review and approval. The design standards included in the proposed ordinance are intended to ensure that projects provide appropriate pedestrian scale, articulation and massing, and are sensitive to adjoining lower-density residential uses.

Outcome December 14th Planning Commission Meeting

An ordinance amending Sections 12.03, 12.04.09, 14.00, and 16.05 of the Los Angeles Municipal Code establishing regulations to facilitate the production of Permanent Supportive Housing.

1. **Found** pursuant to CEQA Guidelines Section 15074(b), after consideration of the whole of the administrative record, including Mitigated Negative Declaration No. ENV-2017- 3137-MND (Mitigated Negative Declaration), and all comments received, with imposition of mitigation measures, there is no substantial evidence that the project will have a significant effect on the environment; Found that the Mitigated Negative Declaration reflects the independent judgment and analysis of the City; Found the mitigation measures have been made enforceable conditions on the project; and adopt the Mitigated Negative Declaration; and Adopted the Mitigated Negative

Permanent Supportive Housing Ordinance
(CPC-2017-3136-CA, ENV-2017-3137-MND)

The Greater Wilshire Neighborhood Council, an official Neighborhood Council of the City of Los Angeles, requests that the following Community Impact Statement be attached/added to Council File 17-1422 regarding a proposed Permanent Supportive Housing Ordinance (CPC2017-3136-CA, ENV-2017-3137-MND):

Los Angeles is experiencing a continuing crisis of our citizens suffering homelessness. The City of Los Angeles needs to continue expanding its efforts to help the homeless with access to services and shelter in the short and long terms. Permanent Supportive Housing is an effective and important component in helping the most vulnerable of our homeless population. With the overwhelming passage of Measures H and HHH, it is important that we remove unnecessary barriers to the creation of Supportive Housing. This proposed ordinance is a step in that direction while remaining respectful of existing zoning and land use.

With the following motion:

That the Board of the Greater Wilshire Neighborhood Council support the Permanent Supportive Housing Ordinance as proposed by the City Planning Department.

This Community Impact Statement was voted on as a properly agendized item during the regularly scheduled Board of Directors meeting on November 8, 2017, and passed by a hand vote with ten in favor; one opposed; two abstained and directed that a Community Impact Statement be filed reflecting its position.

Summary: We, the Mid City West Community Council SUPPORT adopting Council File Number 17-1422, a proposed Permanent Supportive Housing Ordinance for the City of Los Angeles.

Los Angeles is experiencing a crisis in the number of our fellow Angelenos suffering homelessness. While the problem is regional as well as local, the City of Los Angeles needs to do all it can to help those suffering homelessness access services and shelters in the short-term as well as find ways to transition them to becoming housed in the long-term. Permanent Supportive Housing has been proven to be a crucial, and extremely effective, step in the housing of those suffering from homelessness, and as such the City of Los Angeles should do what it can to help more Permanent Supportive Housing units be built.

The proposed Permanent Supportive Housing Ordinance would make it easier and less expensive to build permanent supportive housing while respecting our existing zoning, land use, and built environment. This is crucially important as it is harder to finance and built Permanent Supportive Housing as opposed to market-rate housing.

Third Draft of SECOND Letter to LAUSD Board, Etc.

Dear _____:

On December 22, 2017, the West Hills Neighborhood Council (WHNC) sent a letter to all LAUSD board members, superintendent and acting superintendent, and many others at LAUSD who are involved with the proposed VAPA high school at the Highlander Rd. site in West Hills. A copy is attached for your convenience. The letter basically explains that WHNC and the West Hills community is and remains strongly opposed to using the Highlander Rd. site for the VAPA high school and sets forth very serious, cogent, and valid concerns about traffic, safety and feasibility.

Since that time, WHNC has had absolutely no response from anyone at LAUSD to that letter. The only thing LAUSD has done is to inform the West Hills community that the VAPA EIR will not be brought before the LAUSD board for a vote until March, 2018, at the earliest. LAUSD would provide only ten days notice of that board meeting to the public.

LAUSD has estimated a cost of \$50 million to build the VAPA high school. A Sunday, February 11, 2018, LA Times news article, "Again, LAUSD seeks a leader...LA Unified on another tough search," which addresses LAUSD's search for a new

superintendent, states in part, “One factor that is likely to loom large in the selection of LA’s next superintendent is the district’s budget woes...” The article continues to relate that LAUSD has lost students to charter schools, declining birth rates mean fewer students and higher housing costs force low-income families out of many neighborhoods, while at the same time LAUSD’s pension and retiree healthcare costs continue to rise. Ramon Cortines, a former LAUSD superintendent, predicted there could be bankruptcy for LAUSD if it fails to fund successful programs that enable more students to graduate.

This past summer, Channel 7 ran a special report on LAUSD’s inability to repair the air conditioning systems at its existing schools. An estimate of the cost to do so was cited as \$375 million, with a statement that LAUSD did not have those funds for those necessary repairs...because of its budget woes.

It would seem there is precious little money, if any, to spare to build a VAPA high school with a cost estimate of \$50 million. Then there would be ongoing costs of keeping the school staffed and open. Where would all that money come from with LAUSD’s existing budget woes?

WHNC suggested that LAUSD make use of another of its vacant school sites, namely, the former Hughes Middle School in Woodland Hills, composed of over 17 acres, with existing, useable buildings, including an auditorium (which the proposed VAPA would not have) and playing fields and availability for both faculty and student parking. The Hughes site occupies one

full block in Woodland Hills and is surrounded by four public streets and has on-site parking. The traffic and safety and feasibility issues which plague the Highlander site are not present at the Hughes site. LAUSD indicated it wanted to build the VAPA at the Highlander site in West Hills partially because of its proximity to Hale Charter Middle School, a primary feeder school to a VAPA. The small Highlander site is 1.6 miles from Hale. The much larger Hughes site in Woodland Hills is only 1.9 miles east of Hale Charter... a mere .3 (three-tenths) mile more, thus almost equal in proximity to Hale.

The Hughes site is not presently being used as a school. It is presently underutilized for some LAUSD administrative offices, storage for warehouse materials, limited occupational and speech therapy classes, and office space for a program which oversees home schooling. LAUSD leases the playing fields out for after-school-hours and weekend use. All of the present uses could be moved to other LAUSD property, even to the Highlander site. Then LAUSD could re-open Hughes as a VAPA high school. The playing fields leases would not interfere with the school-hours limited physical education uses of a VAPA. Why start from scratch and build a new school costing \$50 million when a better, bigger, and presently underutilized one already exists?

Also, the much larger Hughes site would give LAUSD room to expand its proposed VAPA high school. When initially touting the "need" for a VAPA, LAUSD professed that such a school is

needed to serve students in the Northwest District of LAUSD. However, the Northwest District of LAUSD is HUGE ... it consists of the entire San Fernando Valley ... it extends all the way from Ventura County line on the north and the west, to the eastern border of Van Nuys, and to the southern border of the San Fernando Valley. In the Northwest District alone, there could be thousands of students who would want to attend a VAPA. However, the extremely small, 7.3-acre Highlander site can accommodate only 532 students and has absolutely no room for expansion. Hughes not only has a much larger, 17-acre campus, almost three times the size of Highlander, with already existing buildings, but also has the capability to house thousands, not hundreds, of students.

WHNC again advises LAUSD of its continuing strong opposition to locating a VAPA high school at the Highlander site and encourages LAUSD to abandon its plans to do so. WHNC volunteers to work together with LAUSD to locate a better campus site for a VAPA high school for a better experience and safety for its proposed VAPA parents and students and to protect West Hills stakeholders' safety in their neighborhood.
