Good afternoon

Regarding the last meeting it was a concern about employees parking during construction phase, I sketched the location of the site for parking 4 cars park easily on the remaining space, any delivery will be done to the driveway which will be lightly concreted beforehand and it is 12' wide. And the other concern was the Fire department approval which I enclosed in this email. It was cleared by all departments last year, copy enclosed too.

We calculate construction will take 10 to 12 months to complete.

Funding is already available.

Thanks again for your help and consideration.

Nello

OUR LA Presentation

West Hills Neighborhood Council Planning Committee

I am opposed to the request for relief from land use and building code restrictions for the project at 8817 Chatlake.

Our roads are substandard. The applicant is opposed to roadway improvements. The neighborhood has historic Zoning Administrator rulings, including:

1983 Tentative Tract 31359

2003 ZA -3393

2008 ZA -1062

2023 ZA -1899 (under advisement)

The project is insensitive to the neighborhood.

Please reject the request for relief from code restrictions.

Case # ZA-2023-1899-ZAD-HCA

Amir Samani of GemStone Properties, LLC is requesting permission to build a 3723 sq. ft. house and an ADU at 8817 and 8815 North Chatlake Drive, West Hills, CA 91304. Local residents made a presentation at a public hearing, asking that permission be denied. Jonathan Hershey, the Associate Zoning Administrator, stated he would review additional information provided by Gemstone, and make a decision at the end of July. The Neighbourhood Council including Bill Rose and Char Rothstein have since been advised of the residents concerns regarding building in this area, and have been given an extension by Mr Hershey until Aug 15th to submit their WHNC Zoning determination letter.

Chatlake Drive is a sub standard street, which is very narrow in places, with a one way in and one way out access road in a high fire risk area. (Residents can only obtain California Fair Plan home Insurance) There would be problems for downloading and storing materials. Additionally road or public parking for construction workers is not readily available. Traffic in the area has also increased. This includes home deliveries by various companies including Amazon, and FedEx.

Should an emergency occur it would create problems for City emergency vehicles, amongst others, to gain access and exit the area safely.

The area has been evacuated previously, and I do not understand that building in such a vulnerable area continues to be permitted, particularly in view of climate change and recent fires. We were previously evacuated due to the Wolsey fire, and we would have been evacuated because of the Kenneth fire, but for the wind changing direction. Every fire season we are aware of the risks to life and property.

I am truly concerned that Gemstone appears to see an opportunity to make money regardless of the dangers, and has

demonstrated a willingness to not conform to zoning and building requirements. Holes were drilled into the base of a live oak tree, which was fronting the property, with the purpose of killing it, which sadly was accomplished. My understanding is they also graded the site without permission.

We respectfully ask the WHNC Zoning Committee to review this case at their August 12th meeting, with a view to recommending planning permission being declined before a decision is made by the City of Los Angeles Zoning Administrator, Jonathan Hershey on August 15th, 2025

I fear for the safety of residents as building on this hillside surrounded by rocks could potentially create a Geologic hazard or geohazard.

Community Impact Statement to Strengthen Neighborhood Councils by Revision of City Charter Article IX

Jul 15, 2024 | Community Impact Statements, Full Board, News, WHIP

The Woodland Hills Issues and Policies (WHIP) Committee drafted a proposal for comprehensive revisions to Article IX of the Los Angeles City Charter, which governs the Neighborhood Councils

The Woodland Hills – Warner Center Neighborhood Council proposes that the City Council place a ballot measure to amend Article IX of the City Charter per the separate accompanying Article IX replacement text.

These proposed revisions to Article IX of the Los Angeles City Charter are a necessary response to the long-standing challenges and inconsistent support that Neighborhood Councils have experienced within the city government structure. These challenges have manifested in various forms, from the insufficient funding of Neighborhood Councils to the limited incorporation of their input in city decision-making processes, and from the need for more comprehensive training and support to the occasional oversight of their legal rights and powers under the City Charter.

Just as we have laws and systems in place to ensure the well-being and protection of vulnerable populations, we must also have robust safeguards and support for Neighborhood Councils, which serve as essential democratic institutions for empowering and engaging communities. City officials' inconsistent support for Neighborhood Councils is not merely an administrative shortcoming; it is a structural issue that can hinder the effectiveness of our local democracy.

By revising Article IX, the city can create a more robust, equitable, and accountable framework for the Neighborhood Council system, one that provides these grassroots

bodies with the recognition, support, and resources they require to thrive. The updated Charter provisions will not only clarify the obligations of city officials to foster and support Neighborhood Councils but also establish clear mechanisms for addressing any lapses in fulfilling these responsibilities.

The Neighborhood Council system in Los Angeles is an extensive and intricate network, comprising 99 councils with over 1,300 dedicated participants. These volunteers contribute their time, energy, and expertise to serve their communities and facilitate democracy at the grassroots level. However, despite their commitment and passion, many Neighborhood Councils face persistent operational challenges that can limit their ability to fully realize their mission and potential.

Notably, approximately one-third of Neighborhood Councils encounter difficulties in achieving quorum, the minimum number of members required to conduct official business. This participation challenge arises from various factors, including a shortage of candidates willing to step forward and serve, as well as the frustration and burnout that can lead to resignations among current council members.

These operational hurdles are not simply administrative inconveniences; they are indicators of a broader, long-standing pattern of inconsistent support that has affected the Neighborhood Council system. When councils struggle to attain quorum, they face limitations in advocating for their communities, providing meaningful input on city policies, and delivering the critical services and support that their constituents need.

The proposed amendments to Article IX of the City Charter seek to directly address these challenges by establishing a more supportive, empowering, and sustainable framework for Neighborhood Councils. By ensuring sufficient funding, training, and resources for councils, as well as elucidating the responsibilities of city officials to support and collaborate with these grassroots entities, the revisions aim to overcome the historical inconsistencies and empower Neighborhood Councils to flourish.

Furthermore, by instituting regular processes for the evaluation, improvement, and oversight of the Neighborhood Council system, the amended Article IX will facilitate the identification and resolution of operational issues before they escalate into more significant problems. This proactive approach will ensure that councils have the tools and support necessary to surmount challenges and effectively serve their communities.

In summary, the magnitude and intricacy of the Neighborhood Council system in Los Angeles, coupled with the significant operational challenges encountered by many councils, highlight the crucial importance of the proposed revisions to Article IX. By

codifying these reforms in the City Charter, we can establish a more resilient, responsive, and empowering framework for grassroots democracy—one that genuinely values and supports the remarkable work of our Neighborhood Councils and their dedicated volunteers.

Woodland Hills Issues and Policies Committee [WHIP]

Draft for an Amended 1 Article IX - Department of Neighborhood Empowerment and 2 **Neighborhood Councils** 3 **NEW** Introduction to Article IX. 4 5 Department of Neighborhood Empowerment and Neighborhood Councils 6 In a city as vast and diverse as Los Angeles, ensuring that every voice is heard, and every community is well-7 served is a critical challenge. Article IX of the Los Angeles City Charter establishes the Neighborhood Council 8 system as a vital bridge between its residents and their government. By creating a network of grassroots, 9 community-based councils, Article IX aims to foster a more accessible, responsive, and inclusive system of 10 governance that brings decision-making closer to the people it affects. 11 The Neighborhood Council system is designed to serve as a two-way conduit for communication and 12 collaboration between the City and its residents. These councils provide a platform for community members to 13 express their needs, concerns, and aspirations directly to City officials and decision-makers. At the same time, 14 they serve as a channel for the City to keep residents informed about important issues, policies, and initiatives 15 that impact their neighborhoods. By facilitating this ongoing dialogue and partnership, Neighborhood Councils 16 help to build a stronger, more cohesive, and more responsive City government. 17 Article IX creates a robust Neighborbood Council system by providing a clear, comprehensive, and 18 empowering framework for its operation. Through the essential funding, training, and support for 19 Neighborhood Councils, increased opportunities for collaboration with City departments and officials, and a 20 commitment to continuous improvement and adaptation, these amendments aim to maximize the impact and 21 effectiveness of this vital participatory system. Ultimately, investing in the success of Neighborhood Councils 22 is an investment in the future of Los Angeles as a city where every community has a strong voice and a 23 meaningful role in shaping its destiny. 24 25 Existing Sec. 900.
