In the event of a disruption that prevents the eligible legislative body from broadcasting the meeting to members of the public using the call-in option or internet-based service option, or in the event of a disruption within the eligible legislative body's control that prevents members of the public from offering public comments using the call-in option or internet-based service option, the eligible legislative body shall take no further action on items appearing on the meeting agenda until public access to the meeting via the call-in option or internet-based service option is restored. Actions taken on agenda items during a disruption that prevents the eligible legislative body from broadcasting the meeting may be challenged pursuant to Section 54960.1. California Government Code Section 54953.8(b)(3).

The legislative body shall not require public comments to be submitted in advance of the meeting and shall provide an opportunity for the public to address the legislative body and offer comments in real time. California Government Code Section 54953.8(b)(4).

Notwithstanding Section 54953.3, an individual desiring to provide public comment through the use of an internet website, or other online platform, not under the control of eligible legislative body, that requires registration to log in to a teleconference may be required to register as required by the third-party internet website or online platform to participate. California Government Code Section 54953.8(b)(5).

A legislative body that provides a time public comment period for each agenda item shall not close the public comment period for the agenda item, or the opportunity to register, pursuant to paragraph (5), to provide public comment until that timed public comment period has elapsed. California Government Code Section 54953.8(b)(6)(A).

A legislative body that does not provide a time public comment period, but takes public comment separately on each agenda item, shall allow a reasonable amount of time per agenda item to allow public members the opportunity to provide public comment, including time for members of the public to register pursuant to paragraph (5), or otherwise to be recognized for the purpose of providing public comment. California Government Code Section 54953.8(b)(6)(B).

Public Input: Comments from the public on agenda items will be heard only when the respective item is being considered. Comments from the public on other matters not appearing on the agenda that are within the Board's jurisdiction will be heard during the General Public Comment period. Please note that under the Brown Act, the Board is prevented from acting on a matter that you bring to its attention during the General Public Comment period; however, an issue raised by a member of the public may become the subject of a future Board meeting. Public comment is limited to two minutes per speaker, unless adjusted by the presiding officer of the committee.

MOTION

The City of Los Angeles maintains more than 220,000 streetlights that are essential to public safety by improving nighttime visibility for motorists, pedestrians, cyclists, and emergency responders. Following the failure of the Bureau of Street Lighting's proposed Proposition 218 assessment, the Bureau must continue operating with limited resources and a significant repair backlog. As a result, it is more important than ever that available repair crews be deployed where functioning streetlights provide the greatest public safety benefit.

The Bureau of Street Lighting generally prioritizes repairs on a first-in, first-out basis, except for immediate electrical hazards. While administratively simple, this approach does not account for the varying public safety impacts of streetlight outages across the City. The City already uses objective prioritization criteria for infrastructure programs such as its Sidewalk Repair Program, and a similar approach should be used for streetlight repairs.

I THEREFORE MOVE that the Council instruct the Bureau of Street Lighting, with assistance from the Chief Legislative Analyst as needed, to develop and implement a transparent, objective Streetlight Repair Prioritization Matrix for all non-emergency streetlight repair requests.

I FURTHER MOVE that the prioritization matrix, modeled after the City's Sidewalk Repair Program, prioritize outages located:

- Within or adjacent to single-family and multi-family residential neighborhoods;
- Near parks, schools, libraries, recreation centers, senior centers, and transit stops;
- Along high-pedestrian corridors, including Safe Routes to School;
- In locations with documented public safety concerns, including higher rates of pedestrian or vehicle collisions or crime.

I FURTHER MOVE that the prioritization matrix assign lower priority to routine, non-emergency outages located primarily within commercial and industrial corridors, while preserving the Bureau's existing practice of immediately responding to electrical hazards and other emergency conditions.

I FURTHER MOVE that the Bureau report to Council within 90 days with the proposed prioritization methodology, implementation timeline, and any resources or policy changes necessary to implement the prioritization system.
